Additional Comments and Explanations to the NC Family Policy Council Questionnaire

1. The idea that assistance be available to lower income parents should be extended to ALL parents. Tax dollars should follow the child therefore assistance should be made to all families.

2. A person’s personal beliefs should absolutely influence the decisions they make while serving in public office. Separating religious from personal beliefs is impossible. An individual is elected on their values and should expected to uphold them.

3. Without a cost / benefit analysis on this topic a firm answer cannot be given. The lottery is a business to generate revenue for the state and if the cost is worth it then it should be increased.

4. Sports betting should be legal to allow the choice for North Carolinians to participate or not.

5. In a free market economy the state just like any other business needs to compete. Offering incentives is no different than what any other individual or business can do and should be allowed.

6. While we should NOT have to have such laws as simply the best person should get the work / job / position given today’s society we cannot do that therefore ALL need to be protected for equality.

7. Benefits of a strict education of providing abstinence until marriage are clearly not demonstrated and provide little to no value.

8. They should receive funds that any medical establishment would receive, nothing different or special outside of that.

9. We need to allow those that have chosen to end their life to die in comfort and dignity. While my personal belief is against this for myself I can’t restrict the choice for others.

10. Yes with the consent of the mother and father.

11. No additional comment.

12. No additional comment.

13. I am completely in favor of term limits.

14. No additional comment.
