**Follow-up to question #4**

**As a believer in the free market, my policies will be directed toward economic growth across the state. I do not believe the General Assembly should pick a few corporate winners and then spread the cost to taxpayers and other businesses. However, I am fully in favor of any cost savings derived from regulatory reform which might be included in "other financial benefits" mentioned in question #4. I would insist that this regulatory reform be applied consistently across the state.**
