Additional Responses / Explanations

To question #:

1) I am a proponent that parents who educate their children outside of public education should have a tax exemption from the state equal to what it would cost to educate their child(ren). However I do not think the state should provide a "state-funded scholarship" for non-public education.

10) Abortion should not be failing because it should not be happening/performed in the first place. Abortion is murder and a violation of God's 6th Commandment to humanity, "Thou shalt not murder."

Adh.
